Every Saturday Morning

10:00 AM - in cool weather

9:00 AM - in warm weather

No ride if high predicted to be below
50 during ride time or if raining

Rides will average 10 to 12 miles per hour or a bit faster depending upon the group. No drops. We wait at the top of hills, at stop signs, etc. It is a fun time ride, not an absolute workout to leave you exhausted. Miles will be between 20 and 35.
